

February 2017

CIB Programme Committee PC Commendation for Dr Dean Kashiwagi

It is customary that the CIB Programme Committee in the beginning of the new year selects one or a few CIB Commission Coordinators (or Priority Theme Leaders), who receive a Commendation for extra ordinary performances or accomplishments in the previous year.

The 2017 CIB PC Commendation has been awarded to the founding Coordinator of the CIB Commission W117 – Performance Measurement Performance Measurement in Construction:
-Dr Dean Kashiwagi, Kashiwagi Solution Model Incorporated, USA.

His drive to promote the performance concept in Construction worldwide is enormous. In support of this he travels around the world and established new “chapters” in many countries. Until his retirement in the beginning of 2017 he did as professor at Arizona State University and as W117 Coordinator. Since then he does this - using his own money to travel - only as CIB W117 Coordinator. This has the potential to bring in a substantial number of new CIB Members in these countries.

In addition he set up and manages the CIB Encouraged online Journal on performance issues in Construction that actively promotes CIB and selected CIB Publications (including all published Research Roadmaps).

The Research Roadmap on Performance Information in Construction be found [here](#).
