

# SASBE Seminar – 25 MAY 2022

## Sufficiency, Circularity & Systems

**Professor Usha Iyer-Raniga**

**Dr David Ness**

**Professor Will Swan**

### ABOUT THIS SEMINAR

- **SUFFICIENCY**

Presented by Dr. David Ness, Adjunct Professor, University of South Australia, UniSA STEM & Architecture

- **CIRCULAR BUILT ENVIRONMENTS**

Presented by Prof. Usha Iyer-Raniga Sustainable Built Environment, RMIT University, co-lead of the UN Sustainable Buildings and Construction Programme.

- **ENERGY HOUSE**

Presented by Prof. Will Swan, Director of Energy House Laboratories, University of Salford.

This seminar series is organised by the Smart and Sustainable Built Environment Working Group (W116) of the CIB. Seminars introduce research in smart and sustainable built environment fields and highlight key challenges and alternative approaches. Seminars consist of short presentations, panel discussions and questions.

This event will be hosted by the CIB. If you have questions or would like to suggest a seminar, please contact: Dr Jeremy Gibberd: [jjgibberd@csir.co.za](mailto:jjgibberd@csir.co.za)
