International Council for Research and Innovation in Building and Construction

Conseil International du Bâtiment (CIB) is the global network of construction and built environment experts who improve their performance through international co-operation and information exchange with their peers to improve the quality and impact of research and innovation activities in the sector.

CIB was established in 1953 and holds special UN consultative status.

60 Countries

83 Organisations

200 Individual Members

2500 Experts

31 Working Commissions

6 Task Groups

21 Student Chapters

32 Partner journals

30,800 Research papers

Organisations can join CIB as Full, Associate or Individual members, and we welcome applications from any type of organisation interested in research or innovation in our sector.

Our current Full members are:

Dongping Fang, CIB President

Don Ward, CIB Chief Executive

"Through my association with the CIB since 1994, I have developed the very best relationships with those I have collaborated and worked with over the years"
