

SAVE THE DATE

UK Lean Construction Research & Industry Forum 2026

Lean Construction for Industrial Transformation

FRIDAY 30 OCTOBER 2026 | 10:00-18:30

Adams Room, Newton Building, Nottingham Trent University City Campus

A working forum

This Forum brings together clients, contractors, consultants, programme leaders and researchers to examine what makes Lean implementation succeed at project, programme and organisational levels. It is a working forum: concise evidence-led contributions are followed by facilitated discussion, roadmap development and agreement on practical next steps.

Programme

- 01 Research Agenda and CIB TG128
- 02 Implementation - Lean in Practice
- 03 Enablers - Commercial and Production Systems
- 04 UK Lean Construction Network

How the Forum will work

- Case contributions
- Practical activities
- Facilitated discussions

Who should attend

Clients, contractors, consultants, infrastructure organisations, technology providers, researchers, educators and early-career professionals interested in improving delivery through Lean.

CONTRIBUTORS

- **Paul Ebbs**
Lean Construct Ltd.
- **Tom Farley**
Galliford Try
- **Warren Hodgett**
Galliford Try
- **Kevin McHugh**
McHugh Lean Construction
